

B&G Barter & GAMES

B&G is a meeting point for nerd cultural's fans, where you can barter, buy or sell games and collectables. A social network mixed with a marketplace that has the particularity of treating "only" objects related to nerd culture (video games, anime, comics, manga, card collecting, board games, action figures, Funko Pop!, ...). The social network side will be useful to create a community and make people with the same passion interact with each other, and maybe then they will end up bartering something.
