

CHOPPER!

Impresa in Aula 2023-2024

Gabriele Perrone

Morena Raggi

Davide Nizzola

Davide Cordoni

Prof. Francesco Perugini

The problem

Cutting board users waste time and energy discarding food waste and separating cuts into containers and are also forced to purchase multiple tools.

Our product

For families looking for ease and speed in the kitchen, **Chopper!** it is a multipurpose cutting board that **optimizes space** without compromising versatility.

Unlike common cutting boards, our product integrates two functional trays, which can be used in oven and dishwasher, and an elegant vegetable cutter, making meal preparation a dynamic and practical experience.

Our product is made only of **sustainable** and easy to recycle materials.
