

**PERSONAL INFORMATION**

Name and surname	<b>DOMINIQUE SERRANI</b>
E-mail	<a href="mailto:d.serrani@staff.univpm.it">d.serrani@staff.univpm.it</a> <a href="mailto:dominique.serrani@outlook.it">dominique.serrani@outlook.it</a>
Nationality	<b>Italian</b>

**EDUCATION AND FORMATION**

Date (from – to)	From 1 <sup>st</sup> January 2023 in progress From 1 <sup>st</sup> January 2022 to 31 <sup>st</sup> December 2022 From 1 <sup>st</sup> January 2021 to 31 <sup>st</sup> December 2021
Assignment	<b>Research grant</b> AGR/14 Department of Agricultural, Food and Environmental Sciences (D3A) Polytechnic University of Marche - Università Politecnica delle Marche (UNIVPM)
Topic	“Monitoraggio del suolo in agricoltura biologica e bioconservativa” The project AGRIBIOCONS is financed by Bando “Sostegno alla creazione e al funzionamento di Gruppi Operativi del PEI – Sottomisura 16.1 Azione 2” annualità 2017 – PSR Marche 2014/2020. Members of the partnership are: <ul style="list-style-type: none"> <li>• Società Agricola Biologica Fileni s.r.l., in qualità di capofila del progetto;</li> <li>• Arca s.r.l. Benefit;</li> <li>• Università Politecnica delle Marche (UNIVPM), con le due aree di</li> <li>• Scienza del Suolo (Professor Corti),</li> <li>• Genetica Agraria (Professor Tavoletti);</li> <li>• A.E.A s.r.l.;</li> <li>• Società Agricola Agri Blu di Zingaretti e Soci</li> </ul> Our contribution to the project includes two evaluations: <i>i)</i> the effect of organic and organic-conservative practices on soil properties. The study is carried out in the eight farms included in the project, located in Vallesina (AN-MC). The “Visual Soil Assessment” (VSA), the “Visual Plant Assessment” (VPA) (FAO, 2008) and pedological surveys are the methodologies applied; <i>ii)</i> the direct measurement of soil erosion after rainy events along a cultivated hillside of the “LOV” agricultural farm (Apiro), included in the Esinante river basin (MC-AN).
Date (from – to)	From 1 <sup>st</sup> November 2017 to 20 <sup>th</sup> July 2021
Name and level of the education institution	<b>Ph.D. school in Agricultural, Food and Environmental Sciences</b> Department of Agricultural, Food and Environmental Sciences (D3A) Polytechnic University of Marche - Università Politecnica delle Marche (UNIVPM)
Topic	The Ph.D. project is part of Progetto Strategico di Ateneo 2017 “Discovering “terra preta” in Mozambique: a model for sustainable agroforestry systems to preserve soil, forest and wilderness areas”. The aim of the study was to evaluate the sustainability of the agroforestry practice named <i>slash and burn</i> , historically actuated in Manica province, Mozambique. In detail, soil physicochemical and biological properties were analysed to understand the impact on soil fertility of such practice. The study was carried out in collaboration with the “Sussundenga Research Station Soil” from <i>Instituto de Investigação Agrária de Moçambique</i> (IIAM) and the <i>Universidade Eduardo Mondlane</i> (Maputo), as participants in the program “Applied Research and Multi-sectorial Program” (FIAM) (No. 5.2.1), financed by Agenzia Italiana per la Cooperazione e lo Sviluppo (ICDA). Results are in the process of being published in international impacted journals.
Evaluation	<b>Final evaluation:</b> Excellent <b>Thesis title:</b> “Effect of slash and burn in Mozambique soils”.
Date (from – to)	From November 2015 to February 2017

Name and level of the education institution	<b>Master's degree FORESPA – Forests, soil and landscape (classe LM 73)</b> Department of Agricultural, Food and Environmental Sciences (D3A) Polytechnic University of Marche - Università Politecnica delle Marche (UNIVPM)
Evaluation	<b>Final evaluation:</b> 110/110 e lode <b>Thesis title:</b> "Valutazione dei valori di fondo per elementi in traccia di suoli urbani in città di media grandezza".
Date (from – to)	From February 2014 to August 2014
Name and level of the education institution	<b>ERASMUS LLP (Study and practice)</b> <b>Grado en Ingeniería Forestal y del Medio Natural</b> Universidad de Santiago de Compostela, campus di Lugo (Spagna)
Date (from – to)	From November 2011 to February 2015
Name and level of the education institution	<b>Bachelor's degree – Forestry and environmental sciences (class L 25)</b> Department of Agricultural, Food and Environmental Sciences (D3A) Polytechnic University of Marche - Università Politecnica delle Marche (UNIVPM)
Evaluation	<b>Final evaluation:</b> 109/110 <b>Thesis title:</b> "Confronto diacronico (1992 - 2012) della forma totale e disponibile di metalli e metalloidi in Technosols originatisi da scarti di miniera di lignite. As Pontes, Galizia, Spagna".

## ACADEMIC ACTIVITY

Didactic activity	From February 2023 to May 2023 From February 2022 to May 2022 <b>Adjunct professor of "Conservazione del suolo"</b> In the "Innovative Agricultural System" (SAI) course Department of Agriculture, Food and Environmental Sciences (D3A) Polytechnic University of Marche - Università Politecnica delle Marche (UNIVPM) Via Umbria, 63100, Ascoli Piceno, Italy
	20 <sup>th</sup> October 2022 <b>Visual Soil Assessment</b> Class and field lessons Department of Agronomy, Food, Natural Resources, Animals, and Environments (DAFNE) University of Padua – Università di Padova (UNIPD) Viale dell'Università 16, 35020, Legnaro (Padova), Italy.
Oral presentations	<b>"Stato e pedogenesi di suoli riforestati in ambiente proglaciale, Islanda"</b> Workshop "Soil and water health", 4-6 Luglio 2023, Palazzo Sersanti, Imola. <b>"Valutazione della fertilità del suolo e dell'erosione nelle aree a biologico e biologico conservativo"</b> Final conference of the PSR project AGRIBIOCONS. December 7, 2022, Falconara M.ma, Italy. <b>"Effetto della pratica bio conservativa su suoli coltivati della Vallesina regione Marche, Italia"</b> 43 <sup>rd</sup> National Congress of Italian Society of Soil Science (SISS) "Il suolo nella transizione ecologica" 5-7 ottobre 2022, Palazzo del Collegio Romano. <b>"Vocazionalità del suolo alla coltivazione di Corylus avellana L nelle Marche: Collevocchio, Fiastra (MC)."</b> Workshop GEOLAB "Paesaggi rurali, vocazionalità delle terre, eccellenza delle produzioni agricole". June 21-23, 2022, Imola, Italy. <b>"Valutazione della fertilità del suolo e dell'erosione nelle aree a biologico e biologico conservativo"</b> Open Day of the PSR project AGRIBIOCONS. December 10, 2021, Sant'Apollinare, Monte Roberto, Italy. <b>"Soil omics approach highlights on slash and burn sustainability"</b> 1 <sup>st</sup> International Joint Congress ESSC – EURECYS: "Sustainable Management of Cultural Landscapes in the context of the European Green Deal".
