

MBIDA

International Workshop

Mobile Networks for Biometric Data Analysis

New and innovative approaches dedicated to biometric data capture and analysis in a non-intrusive way maintaining mobility.

October 30-31, 2014

Università Politecnica delle Marche, Ancona, Italy
Facoltà di Ingegneria, via Breccie Bianche, Aula 160/3

www.dii.univpm.it/mBiDA

October 30, 2014

Registration	8:30-9:15	
Welcome	9:30-9:45	
Round Table	9.45-11.00	Service and technologies for active ageing
Session 1	11:40-12:40	ICT for health care
Session 2	14:30-15:50	Biometric data in automotive and home applications
Session 3	16:20-17:30	Embedded systems for biometric data analysis

October 31, 2014

Session 4	9:00-10:40	Biometric data analysis: EMG and ECG
Session 5	11:10-12:50	ICT for gait analysis
Closing	12:50-13.00	

Steering Committee: Massimo Conti, Natividad Martínez Madrid, Ralf Seepold

Co-Organization: PhD School in Engineering Sciences, Università Politecnica delle Marche

Local Organization:  Dipartimento di Ingegneria dell'Informazione
Università Politecnica delle Marche
