INSTITUT MINES-TELECOM BUSINESS SCHOOL.

In a world increasingly driven by digital technology, Institut Mines-Télécom Business School is a major player in both innovation and learning. Since its creation, the school has shared the campus with its sister engineering school, Telecom SudParis, creating a unique synergy in France. IMT-BS is among the top 10 management schools in France when comparing the level of salaries earned upon graduation. It proposes a full offer of programs, ranging from undergraduate to doctorate, all meeting international standards.

INSTITUT MINES-TELECOM

A leading institute, one of the first national groups of higher education and research in the fields of engineering, management and innovation, with 12,000 graduate students and more than 3,600 faculty and research staff members. Apprenticeship, internship, missions and student projects carried out in partnership with companies all go on to make an active contribution to both innovation and economic development.

(1,200 articles in peer-reviewed international journals per year)
