5. Our References

6. Our Offer

Who takes part in our team?

Our **engineers, project managers and quality managers** are masters of their development tools for a wide range of technical disciplines. This concentrated interdisciplinary know-how creates synergies that enable creativity and new problem-solving approaches.

To support our employees' **enhancement of qualifications means a lot to us.** From the high level of satisfaction among our employees, clients will profit as well, due to the fact that low staff turnover creates stability and continuity in a cooperation.

Where are we in Munich?

Where are we in Munich exactly?

Our Munich office

Agenda

1. Presentation of OSB AG
2. Our Employees & Know-How

3. Our Services

4. Electrical Engineering in Munich
5. Our References
6. Our Offer

Where do we innovate?

In the client's project team

- Our engineers support our client's projects on-site with their expert knowledge and know-how
- Project teams for the complete settlement of a project

In our own engineering offices

- Construction of engineering:
- technical stream machines, electrical and mechanical construction
- Tools & licences: CATIA V5, Solid Works, Inventor, Pro/E, E-Plan, ECS-CAD, L-CAD

In our Competence Center

- Embedded Software Engineering:
- Safety-critical communications and control software
- Development of software solutions for agricultural engineering

Agenda

1. Presentation of OSB AG
2. Our Employees & Know-How
3. Our Services

4. Electrical Engineering in Munich

5. Our References
6. Our Offer

What are our core competences?

Embedded Software
Engineering

Hardware
Development

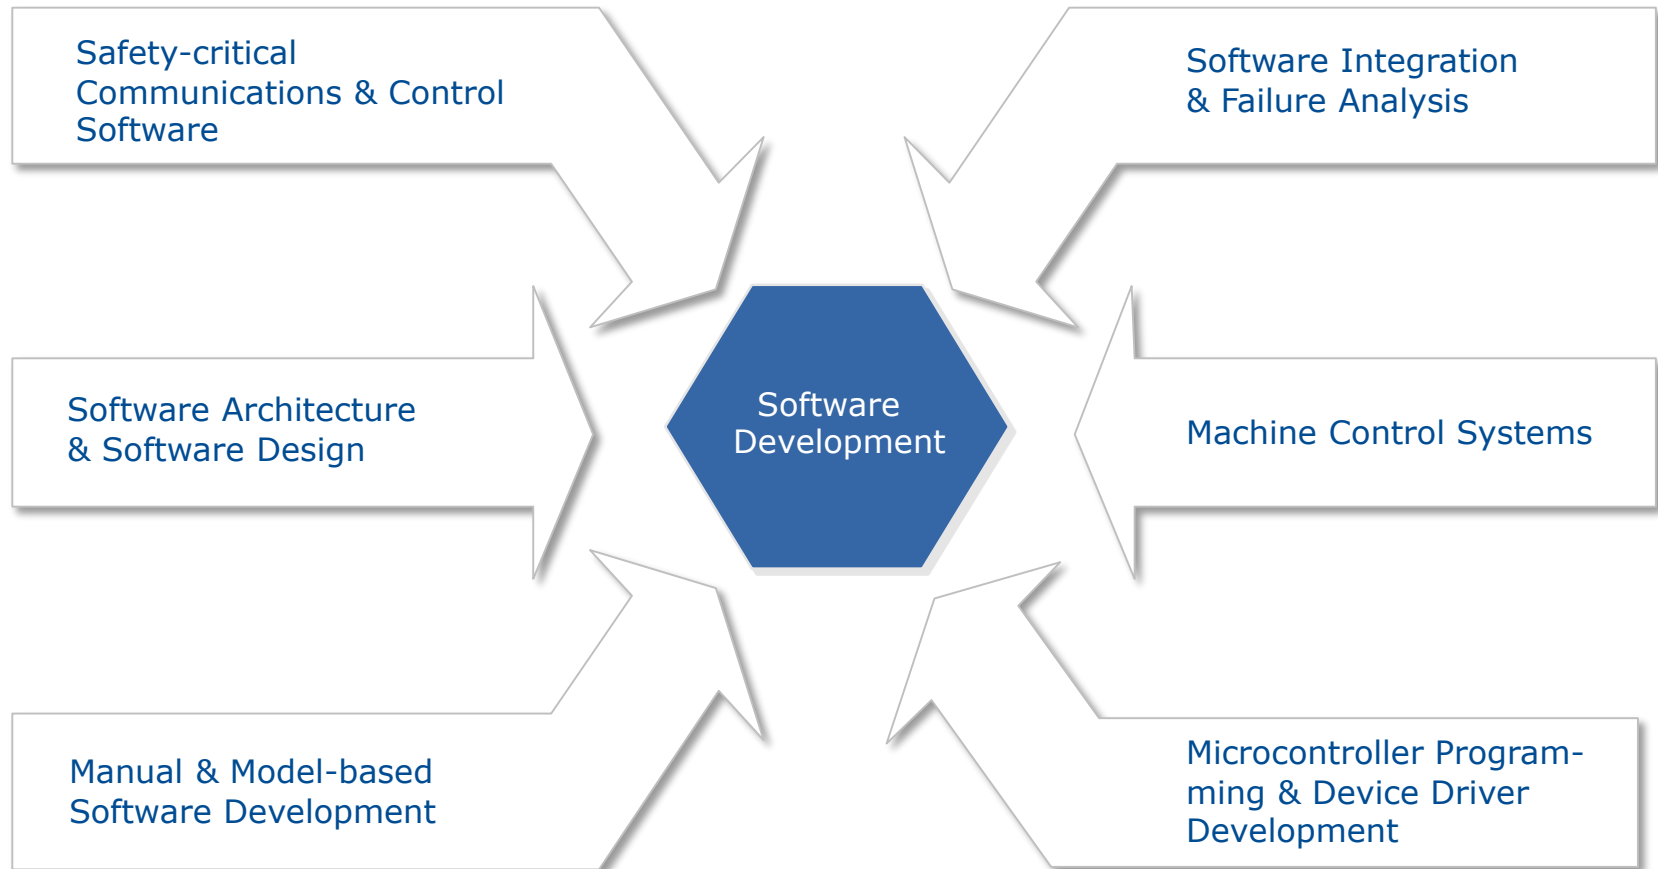

**Electrical Engineering
Department
Munich**

Project Lead &
Project Management

Quality Management &
Process Management

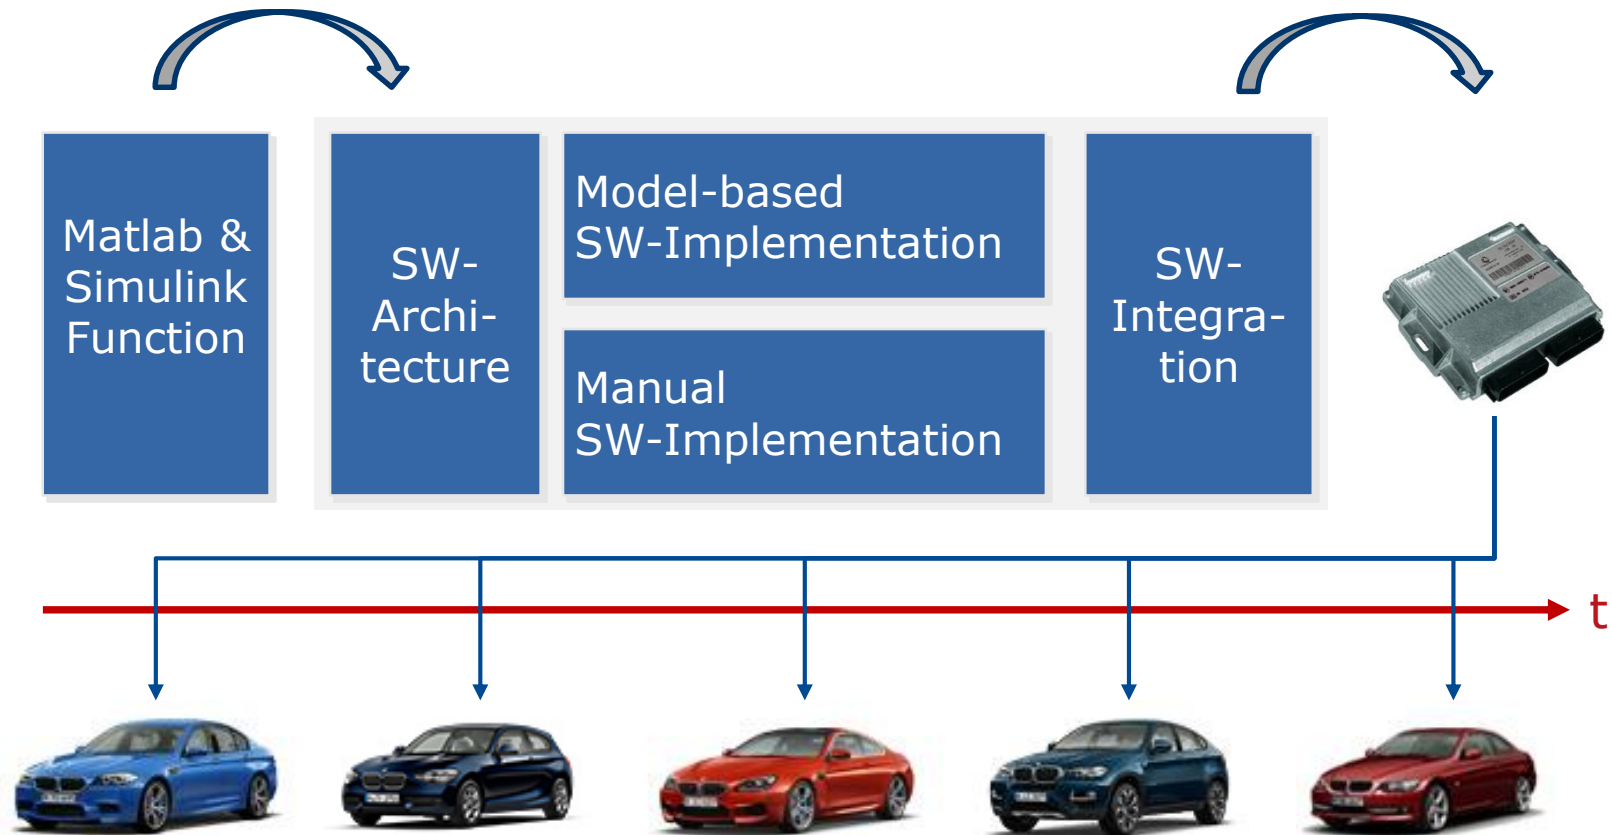

What is our expertise in Embedded Software?

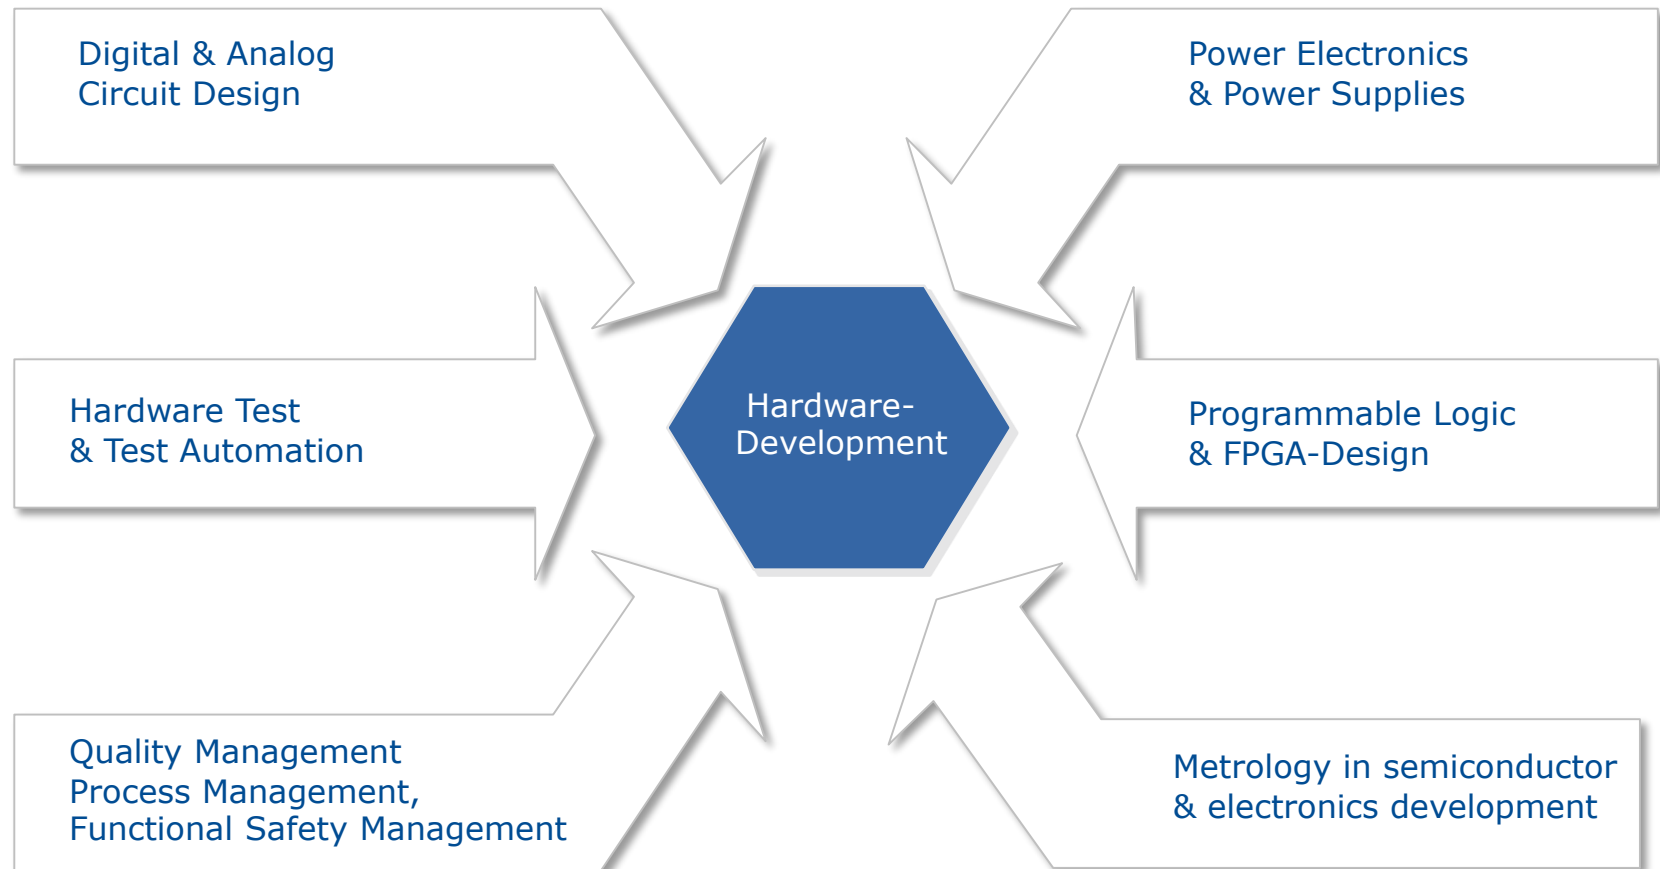

Embedded Software Development: Cooperation with BMW AG

What is our expertise in Hardware?

Full Authority Digital Engine Control (FADEC): Cooperation with MTU AeroEngines AG

- Temperature: -55°C – 95°C
- Vibrations: 40g (40x gravity)
- No susceptibility to lightning and radar radiation

What does a FADEC do?

**Air density
Throttle lever position
Engine pressures
Data from FMS**

**Fuel flow
Vane positions
Safety Functions**

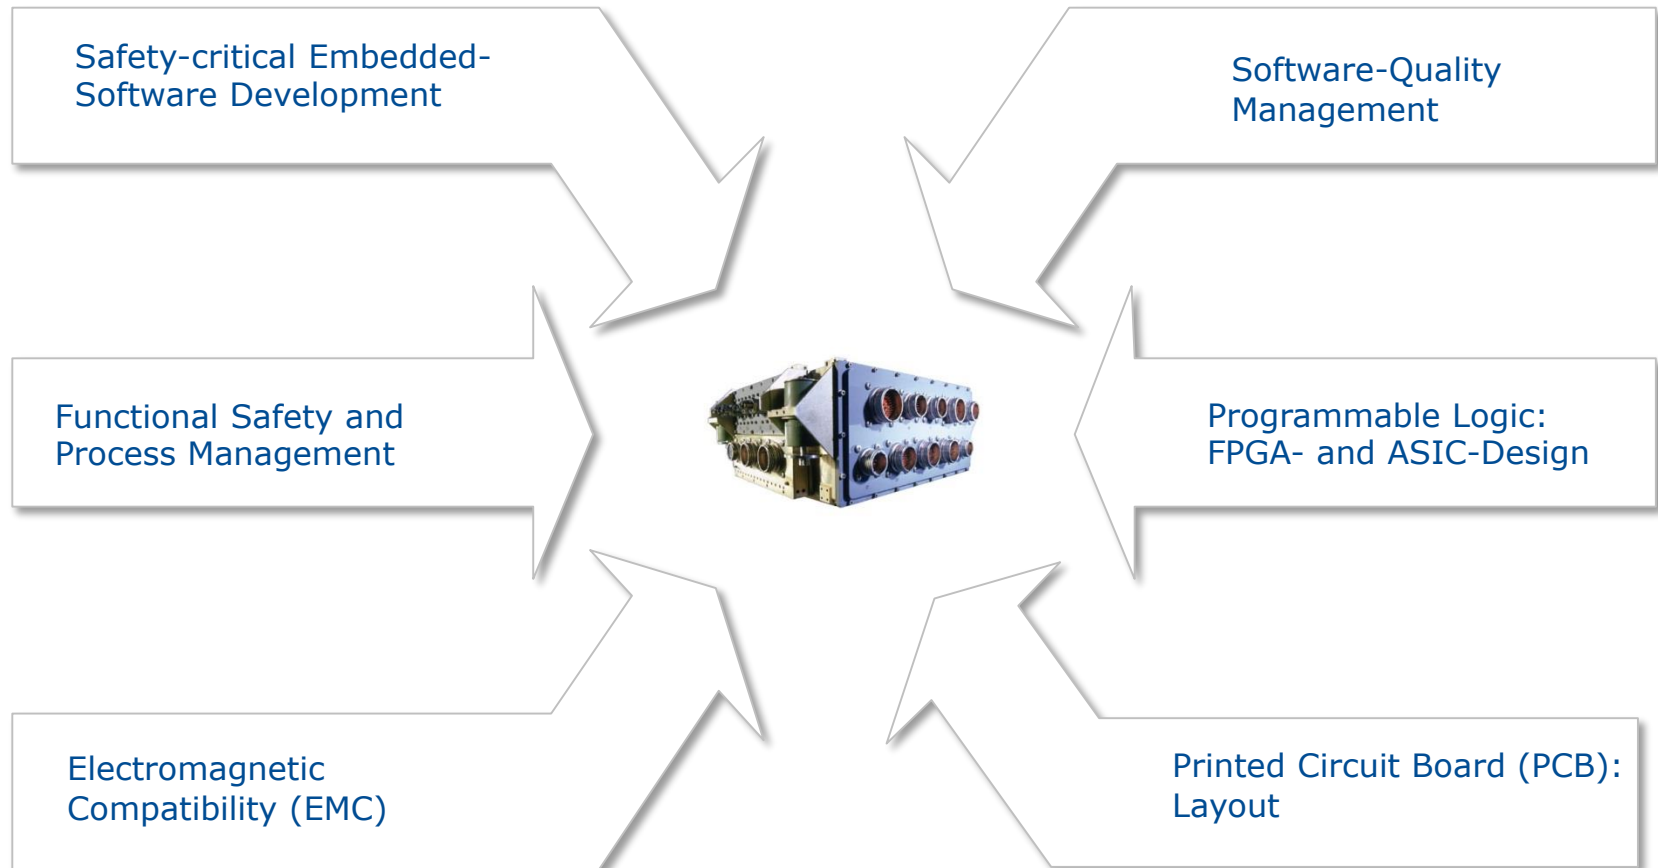

Better fuel efficiency

Automatic aircraft and engine emergency responses

Reducing complexity for the flight crew

What is OSB AG doing there?

What else matters to us?

■ Social Responsibility

At OSB AG we care about socially disadvantaged groups. All our employees are regularly involved in non-profit projects on the occasion of our “Social Day”. We support and realize regional charity projects for those, whose life is not simple.

■ Munich and Bavarian Founders Award 2009

OSB AG was awarded in the category „Founder/Climber“ for its convincing business model, as well as its strong and solid business growth.

■ Bavaria's best 50 of the year 2012

OSB AG was honored with the award „Bavaria's best 50 of the year 2012“ for its sustainable business growth by the Bavarian Ministry of Economics.
