

**TITLE:** Linked Dataset representation of covid19 data for Italy

**Principal investigator:** Prof.ssa Claudia Diamantini; [c.diamantini@univpm.it](mailto:c.diamantini@univpm.it) Tel. 071 2204824

**UNIVPM Research Group:** Knowledge Discovery and Management

**Research activity description:** The project aims at increasing the level of accessibility of data relating to the diffusion of COVID-19 in Italy, through translation in an open, searchable, reusable, machine-readable and machine-understandable format, where the semantics of data, including indicators and analysis dimensions, is formally represented.
