The Action Plan has been approved by the Academic Senate of UNIVPM in the session of 19 December 2023. The implementation of the HRS4R process will be coordinated by a new committee, the Action Plan Implementation Committee (APIC), that has been appointed by the Academic Senate (**Resolution of the Academic Senate n. 229/2023 dated 19/12/2023**). APIC is coordinated by the UNIVPM Rector and is composed of the Rector’s Research Delegates and the members of the UNIVPM Research Committee (also representing both R3 and R4 researchers and the 5 scientific areas characterizing the UNIVPM Education and Research activities), 4 researchers representing the other carrier levels (R1-R2), 2 representatives of the administrative services and the General Director. APIC members were selected among the participants to the WG overseeing the entire application process, ensuring a wide representation of the whole academic community. It should be noted that two members of the APIC are also PhD programs coordinators. APIC will be supported by an operating Action Plan Working Group

(AP-WG), coordinated by the General Director and composed of representatives from all the UNIVPM administrative services involved in the Plan (research, personnel, technology transfer, documentation, etc.). The Rector appointed the members of the AP-WG (**Resolution of the Academic Senate n. 229/2023 dated 19/12/2023**) and the General Director will formally assign the responsibility for each action identified in the Action Plan to the administrative services included in the AP-WG. If there are needs to allocate a budget for the implementation of an action, the specific request will be submitted to the Board of Directors for approval.
